

Nursing Science Scholar Forum

Healing Touch

Healing Touch is a relaxing, nurturing energy therapy that uses gentle touch to assist in balancing physical, mental, emotional, and spiritual well-being. Healing Touch is safe for all ages and works in harmony with traditional medical care. This forum provides basic information on the human energy system, its relevance to patient care, and an opportunity for experiential learning.

Cecilia Kasperick, MSN, RN, CPBN
breast cancer patient navigator
UC San Diego Moores Cancer Center

Cecilia Kasperick RN, MSN, CPBN has been working with UC San Diego Health System since 2009. She received her master's degree in Clinical
