

Statistics Course Requirement

Students in the PhD in Nursing Science program must complete an undergraduate or graduate-level statistics course that covers descriptive and inferential statistics within 5 years of starting the program. Students must complete this course for a letter grade of “B” or better. Courses taken for a “Pass/No Pass” grading option are not acceptable.

If you **have** completed your Statistics course requirement at the time of applying, please fill out the chart below with course information:

College or University Where Fulfilled	Course Department/ Number and Course Title	Number of Quarter Units or Semester Units	Semester/Quarter Term and Year Completed	Letter Grade*
<i>Example: UC Irvine</i>	<i>Example: STATS 7 – Basic Statistics</i>	<i>Example: 4 Quarter Units</i>	<i>Example: Fall 2020</i>	<i>Example: B-</i>

* If a course is being taken in the Fall or Winter Term that you are applying, please write “IP” in the grade column.

If you **have not** completed this requirement at the time of applying, please review the information below:

- If it has been longer than 5 years, this course can be taken online or in-person at a regionally accredited community college, university/college, or university extension.
- You may take this course during the summer before starting the program; however, you will be required to send a copy of your final course transcript reflecting your final grade to UC Irvine’s Graduate Student Affairs Office by the start of the Fall term.
- You are responsible for enrolling in the course by the appropriate deadlines.
- If you fail to complete this requirement by the start of the Quarter, you will not be permitted to continue in the program. Exceptions to this policy will not be granted.

Please sign below to acknowledge that you understand the Statistics requirement for admission detailed above:
